

Currently weak handmade solutions with poor sealing used.

**Today's solutions for cable lead through:**  
Handmade solutions, poor sealing

A professional solution is now available.

**Professional lead-through for cables of all types**

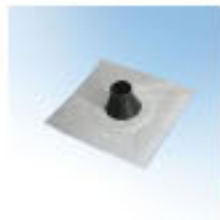

#### PV CABLE OUTLET

Creates watertight seal for 8-16 cables for PV systems, sensors, antennas, lights & CCTV.

#### SOLAR THERMAL OUTLET

For Cables, bundled cables & Water Pipes for solar panels.

#### UNIVERSAL TILE VENT

A low profile universal Tile Vent that can provide roof space ventilation.

#### PV CABLE OUTLET

For weatherproof and airtight connection of solar pipes to underlay membranes and vapour barriers.

#### FLASHTITE

Watertight tile flashing for PV systems, antennas, satellite dishes & CCTV.

#### RAPSTRAP

The Rapstrap cable tie made from flexible polyurethane makes it impossible to over-tighten the tie, causing damage or loss of capacity to the cablin.
